

LifeViz[®]

MINI PRO 2

Capture anywhere :::::

Assess everywhere

THE ULTIMATE CLOUD-BASED

3D PHOTO SOLUTION

STANDARDIZED, HIGH-QUALITY 3D PHOTOGRAPHY

✓ EASY

Automatic image sorting from instant acquisition to patient records. Engage your team.

🔄 CONNECTED

LifeViz® Direct-to-Cloud Upload: move freely between rooms, sites, and events, with instant access to your images anywhere.

💡 SMART

AI-powered 3D image prep, ready in seconds. Redefining 3D imaging.

IMPROVE PATIENT CARE & ROI

From initial visit...

COMMUNICATE, VISUALIZE, REASSURE

- Effectively communicate and reassure patients
- Improve the understanding of treatment options
- Accelerate decision-making

...to the next follow-up visit

SATISFACTION, TRUST, LOYALTY

- Enable patients to see post-treatment results
- Increase treatment conversions
- Elevate patient experience and practice reputation

CAMERA TYPE

Mirrorless with improved image quality

TECHNOLOGY

3D Stereophotogrammetry with dual beam pointers

FIELD OF VIEW

Capture entire face with maximum accuracy

CONNECTIVITY

LifeViz® Neo Direct-to-Cloud encrypted data transfer

⋮ HOW DOES IT WORK ?

- 1 CAPTURE**
standardized pictures using a dual-beam pointer system
- 2 TRANSFER**
your images instantly to the cloud
- 3 RECONSTRUCT**
a 3D model automatically with AI
- 4 MATCH**
the picture with facial recognition to an existing patient folder
- 5 VISUALIZE**
a lifelike patient image from anywhere
- 6 ANALYZE**
skin complexion and morphology

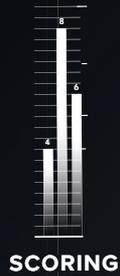

HELP PATIENTS SEE MORE CLEARLY

- Evaluate skin quality in 3D
- Make tailored recommendations
- Advise using a library of skincare products

FROM ASSESSMENT TO INSIGHT

- Assess facial angles
- Take precise measurements, heights and widths
- Simulate possible outcomes on life-like digital twin

REINFORCE PATIENT LOYALTY

- Showcase meaningful before & after images
- Visualize and quantify volume changes
- Validate results
- Compare using multiple display options :
Slider / silhouette / side by side / cursor box
- Evaluate and quantify skin lifting / tightening in 3D

MARKET YOUR PRACTICE

- Export images and videos in .jpg, .png, .mp4 and .gif.
- Showcase results on social media

QL QUARTIER LATIN

Where Science Elevates Beauty

Building on QuantifiCare's 25 years of imaging expertise, Quartier Latin develops the LifeViz® 3D imaging ecosystem, continuing a legacy of science and innovation in aesthetics.

OUR SOLUTIONS

PORTABLE & COMPACT

No dedicated room needed – take it anywhere.

USER-FRIENDLY

AI automation and dedicated tutorial platform for seamless training.

ALL-IN-ONE SOLUTION

3D visualization, precise measurements, skin analysis, and simulations.

FAST & RELIABLE

Standardized images, reproducible results, and reports in <2 minutes.

SCIENTIFICALLY TRUSTED

Used in clinical trials by 8 of the top 10 pharma leaders.

LifeViz[®] neo

STREAMLINE YOUR WORKFLOW

Reduce preparation time with AI and facial recognition for better consultations.

CONNECT YOUR CLINIC NETWORK

Secure, integrated cloud for multi-site clinics. Instant access from anywhere for seamless collaboration.

DESIGNED FOR SECURITY AND COMPLIANCE

Ensure GDPR-compliant data with LifeViz[®] Neo Direct-to-Cloud encrypted transfer.

ELEVATE PATIENT EXPERIENCE

Deliver real-time 3D visuals to patients' mobiles to keep patients satisfied during treatment journey.
